SPECIAL MESSAGE FROM THE AWAM PRESIDENT

"..with the new Unity Government, I hope that the Government shall embark on genuine solid substantive reforms on equity, democracy, accountable to all and AWAM shall certainly be a critical voice of this reform."

On 16th July 2022, I was re-elected as the President (2022-2024) of AWAM for the third time. On 20 July 2022, the Anti-Sexual Harassment Act (ASHA) was passed at the House of Parliament. These are the two significant events for me and for AWAM.

Although the ASHA is not perfect, I had tears in my eyes on the day the Act was passed. Since 1980, together with other women's groups (Joint Action Group - Gender Equality, JAG), AWAM has indomitably fought for a stand-alone ASHA. It was an arduous 40-year journey before we came to a consensus.

AWAM has been an established women's organisation for the past 38 years. Ever since her inception in 1985, she has contributed invaluable services with constructive input for the Women's Ministry and conducted countless awareness building programmes for the community.

For the next few years, AWAM shall operate on these 4 key objectives :

- To rebuild good governance practices and enhance AWAM's Values (Compassion & Respect; Courage, Collectivism; Equality & Justice; Integrity);
- To groom and cultivate future leadership who are gender-centric with integrity;
- To strengthen AWAM's financial position;
- To escalate AWAM's work in gender equity with the following 3 thrusts:

Gender Based Violence:

- Anti-Sexual Harassment (adults and children);
- Rape/Date Rape;
- Violence & Mental Health;
- Women in Custody.

Gender Equality & Democracy:

- Women's Political Participation/SDG

Women & Health:

- Period Poverty

The ASHA has been passed and another phase of work has begun.

AWAM shall henceforth assiduously and diligently organise trainings in SH to various stakeholders for their awareness.

We would never have been able to accomplish what we have at AWAM if not for the dedication and commitment from the staff, interns, members and volunteers. Additionally, the support, encouragement, monetary donations and solidarity from the stakeholders, and camaraderie from fraternal organisations have enabled us to come this far. I want to extend my heartfelt appreciation to all these heroes, seen or unseen, but have definitely left their mark in AWAM. AWAM treasures each and every cent from the public. Not a single cent shall be misappropriated and funds shall be channelled back to benefit the community.

Last but not least, with the new Unity Government, I hope that the Government shall embark on genuine solid substantive reforms on equity, democracy, accountable to all and AWAM shall certainly be a critical voice of this reform.

Together, we move the world!

Love,

Yock Lin

President

SPECIAL MESSAGE FROM THE HONORARY SECRETARY

When I first came to AWAM as an Intern in 2020, I knew nothing about activism and very little about Women's rights.

What I did know was that as a young Woman not just in this country but in this society, throughout my life I had experienced countless variations of discrimination - be it gender discrimination at school or in the workplace, or sexual harassment in public and private settings.

And what resonated with me was that this experience was not unique to myself, but to every woman in my life, regardless of age, class, race and from all walks of life. I knew as a young student that I wanted to be a part of something bigger and make an impact - which lead me here to AWAM.

AWAM is not just an organization, but a movement driving structural change and making a difference, no matter how small.

From a small organization with a mere 5 staff, we have lobbied for Bills such as the Sexual Harassment Bill to be passed, worked with the ministry, Government organizations and large corporations alike, provided support and legal aid to thousands of survivors and have acted as a beacon of hope and change for Malaysians, men and Women alike.

Yes, it may be that my internship at AWAM taught me how to become an activist, a feminist and a leader. But it is on this board as an Ordinary Council Member and now Honorary Secretary where I learned the true meaning of Sisterhood, Comradery, and Resilience.

It is with not just my fellow Council members but beloved Members and Staff alike where I learned what it truly meant to band together and fight for a cause no matter what the obstacles and the odds - to persevere through tough times and look out for one another for the greater good.

I hope you join me in celebrating AWAM's achievements for 2022 and continue to stand with me in this Sisterhood, not just for the future of AWAM but for the future of Women in Malaysia.

Love,

Natasha Franklin

Honorary Secretary

"Yes, it may be that my internship at AWAM taught me how to become an activist, a feminist and a leader. But it is on this board as an Ordinary Council Member and now Honorary Secretary where I learned the true meaning of Sisterhood, Comradery, and Resilience."

SPECIAL MESSAGE FROM THE SENIOR PROGRAMME MANAGER

"We urge young women of the country to join us in our upcoming activities and programmes and help us serve the community to create a just, democratic and equitable society where all persons (women especially), are treated with respect, and are free from all forms of violence and discrimination."

Perseverance - such an important yet underestimated element necessary for humanity to thrive. We have seen it in the biggest chronicles in history; we see it when humanity was plagued by the Covid-19 pandemic; we see it in the survivors that come through our doors, we see it in ourselves as staff, interns and members of AWAM in the past years since its establishment in 1985. Indeed we have come far since.

2020 - 2022 was one of such periods in our time where the true meaning of perseverance was a dictum. As with other women's organisations in Malaysia and across the world during the Covid-19 pandemic, AWAM has persevered, risen and ready as we transition into the endemic stage, which naturally comes with uncharted social challenges within our community.

To prepare ourselves, we mobilised to recalibrate, re-strategize and realign our core activities to properly suit the needs of our community.

As if by divine intervention, 2022 was an election year for AWAM and we did not hesitate to allow ourselves this opportunity for the organisation to flourish under a fresh new line of leadership from diverse backgrounds and experiences.

As the dust of the pandemic settles to reveal the new needs and necessities of the women in our community and country; under AWAM's new Council we will launch into the coming year with activities on the following themes; Gender-Based Violence, Gender Equality and Democracy and Women In Health.

With that, as a final note, we once again thank our community and stakeholders for persevering with the choppy political landscape and keeping the doors open for us throughout the years for meaningful and fruitful discourse in hope to secure women's rights and bring about gender equality as we did with the Anti Sexual Harassment Act which was finally passed.

As we embrace the concept of Malaysia Madani, AWAM looks forward to more activities to sustainably build capacities for women's empowerment and social transformation.

We are humbled by your support and we urge young women of the country to join us in our upcoming activities and programmes and help us serve the community to create a just, democratic and equitable society where all persons (women especially), are treated with respect, and are free from all forms of violence and discrimination.

A woman approached AWAM for assistance on her accident case, as the police officer did not provide her with a report that she can use to claim for her insurance. Information to the survivor for further action.

Our helpline team member accompanied her to the police station to get the copy of the report and provided necessary information to the survivor for further action.

AWAM provided counselling and legal information services to the survivor.

4

A 50-year old man contacted AWAM for financial assistance. The client worked in the entertainment industry and he was his family's sole breadwinner.

His income was greatly affected as a result of the pandemic. AWAM referred the survivor to other related NGOs and members of Parliament for food aid, as well as helped the survivor to apply for financial aid at Jabatan Kebajikan Masyarakat.

5

A teacher approached AWAM on behalf of her student, who shared with her that she was sexually harassed by a van driver. Disclosure of the violation took place in a workshop about safe touch that was conducted by the school.

AWAM provided legal information to the teacher on what she can do to help her student, and subsequently referred her to the Women's Centre for Change for further assistance.

6

A third-party called AWAM on behalf of her family member. The minor did not have an identification card (IC) since she was below the required age, despite being Malaysian and having a birth certificate.

AWAM referred the clients to the nearest National Registration Department branch. AWAM also provided the client with information about the application process and helped review the relevant supporting documents that needed to be submitted.

9

7

A medical doctor based in Perak called us for help to provide a shelter to one of his patients, who was a survivor of domestic violence.

The survivor was a 21-year-old mother who recently gave birth. She was physically abused by her spouse, and it was the second time that she sought medical treatment due to the abuse. AWAM contacted Perak Women for Women to assist the survivor and her baby in getting a temporary shelter, which was successful.

8

An unemployed 58-year-old woman reached out to us for legal information, as she looked to recover her home. She was also struggling with mental health issues.

AWAM worked with the survivor in collecting facts about the case, contacting the relevant authorities, as well as providing her with counselling services for emotional support.

10

A 40-year old female survivor of domestic violence approached AWAM for help on divorce and child custody matters. The survivor was not only denied access to her two children by her spouse, but also continuously experienced verbal harassment by him for making attempts to meet her children.

AWAM helped the survivor revise her police report draft. In addition, our Telenita helpline team provided her with information about the Protection Order. We also accompanied her for important procedures, specifically to lodge a police report, apply for the Interim Protection Order, as well as to get a medical examination.

FOCUS RE-ENVISION CAMP

13 members of AWAM (consisting of staff, newly-appointed council members, interns, internal auditors and a regular AWAM member) got together for a **3-day-2-night reflection & planning camp in October 2022**.

Throughout the camp, with the facilitation of a trainer and her assistant trainer, among the areas we brainstormed and reflected on included **barriers to achieving AWAM's vision, and key actions that we would like to undertake over the next year and beyond**.

AWAM members consisted of one of the most prevalent themes that emerged throughout the camp, and participants collectively brainstormed on ways to engage them more actively and meaningfully in the organisation's current work.
